INDEPENDENT AUDITOR'S REPORT

To the Library Board Ferndale Area District Library Ferndale, Michigan

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of the Ferndale Area District Library (the "Library"), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Library as of June 30, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Library to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

Ferndale Area District Library Management's Discussion and Analysis June 30, 2023

As management of the Ferndale Area District Library, we offer readers of the Ferndale Area District Library's (the "Library") financial statements this narrative overview and analysis of the financial activities of the Library for the year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole.

Financial Highlights

- The assets of the Library exceeded its liabilities at the close of this fiscal year by \$3,362,534 (shown as *net position*). Of this amount \$892,009 (*unrestricted net position*) may be used to meet the Library's ongoing services and obligations.
- During the year, the Library received \$2,301,898 in revenues and incurred \$2,136,767 in expenses, resulting in an increase in net position of \$165,131.
- The general fund decreased its fund balance by \$107,638 during the year for an ending fund balance of \$377,956.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$365,825, or 15 percent of the general fund's total expenditures.

Overview of the Financial Statements

The Library's financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide a broad overview of the Library's financial position. They are presented using a method of accounting that is similar to a private sector business.

The statement of net position presents information on all of the Library's assets and liabilities, with the difference being reported as the net position. Over time, increases or decreases in net position can serve as a useful indicator of whether the financial position of the Library is improving or deteriorating.

The statement of activities presents information showing how the Library's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Each fund is operated similar to a completely separate entity, with its own set of balancing accounts. The Library uses fund accounting to ensure compliance with finance-related legal requirements.

Governmental Funds. The Library's basic services are reported in the governmental funds. Governmental funds account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This is known as the modified accrual system of accounting. Under this reporting system, capital items, debt payments, and certain other items are treated differently than on the government-wide statements. These items are recorded in the government fund balance as expenditures. No depreciation is recorded on capital items. The balance sheet for governmental funds does not include any capital items or long-term debt. The general fund and the capital improvement fund are the only governmental funds for the Library.

The Library adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with its budget.

Notes to the Financial Statements. The notes to the financial statements provide additional information that is essential to a complete understanding of the information provided in both the government-wide and the fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report further presents required supplementary information (RSI) that demonstrates compliance with the Library's budget.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of overall financial position. In the case of the Library, assets exceeded liabilities by \$3,362,534 as of June 30, 2023.

The largest portion of the Library's net position (\$2,470,525, or 73%) reflects its investment in capital assets (e.g., equipment, furniture, and library books), less any related outstanding debt that was used to acquire those assets. The Library uses these capital assets to provide a variety of services to its patrons. Accordingly, these assets are not available for future spending. Although the Library's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of \$892,009 is unrestricted and may be used to meet the Library's ongoing obligations to its patrons and creditors.

Cash decreased from \$1,031,348 to \$957,256. This decrease in cash is correlated to the overall decrease in fund balance of \$107,638 across both funds of the Library. Capital assets being

depreciated decreased by \$71,614 because depreciation expense of \$347,743 exceeded capital asset additions of \$276,129.

Governmental Activities. In the year ended June 30, 2023, the Library's major source of financing its operations was property tax revenues of \$2,216,811.

The Library's property tax revenue increased \$90,044 due to the taxable value increasing 8.5%, net of the millage rate decreasing by 3.3%. The Library had an increase in expenses of \$371,781. Increased staffing led to \$241,377 additional wages, payroll taxes, and benefits. Increased overall activity led to increased supplies and professional services costs.

Governmental Activities

The following chart details the revenue sources for the governmental activities of the Library for the most recent fiscal year-end:

Governmental Activities Revenues

Salaries and payroll taxes were the largest expenses for the Library. The Library spent \$1,069,573 on salaries and payroll taxes, or 50 percent of the Library's total expenses. Another significant expense for the Library was depreciation expense of \$347,743, which represented another 16 percent of the total expenses within the Library during the year ended June 30, 2023.

Financial Analysis of the Government's Funds

The Library uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

General Fund. The general fund is the chief operating fund of the Library. At the end of the current fiscal year, unassigned fund balance of the general fund was \$365,825. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total general fund expenditures. Unassigned fund balance represents approximately 15 percent of total general fund expenditures.

The fund balance of the Library general fund decreased by \$107,638 during the year ended June 30, 2023.

Capital Project Fund. The fund balance of the Library's capital project fund was \$557,206 as of year-end, there was no activity in the fund for the 2023 fiscal year. These resources will be used for future capital projects.

General Fund Budgetary Highlights

Original budget compared to final budget. During the year there were several amendments to original budgeted appropriations when the actual financial results became known. The most significant change was an increase to the amount appropriated to salaries and payroll taxes from \$1,021,580 to \$1,087,500.

Final budget compared to actual results. The Library incurred operating supplies expenditures of \$281,700, which was \$1,700 more than the amount appropriated in the final amended budget. This was the sole budget exception for the Library's general fund expenditures.

Capital Asset and Debt Administration

Capital Assets. The Library's investment in capital assets at year-end amounted to \$3,994,805 (net of accumulated depreciation). Capital assets of the Library include any items purchased that have an expected useful life of over one year and a cost of over \$2,000. The Library has invested in a broad range of capital assets. More information about the Library's capital assets can be found in the notes to the financial statements section of this document.

Long-term Debt. The Library had debt outstanding of \$1,524,280 as of June 30, 2023. More information on this long-term debt can be found in the notes to the financial statements section of this document.

Economic Factors and Next Year's Budgets and Rates

Management estimates that approximately \$2,490,685 of revenues will be available for appropriation in the general fund in the upcoming budget. The Library continues to review all budget line items for opportunities to reduce expenditures when possible. The budget will be monitored during the year to identify any necessary amendments.

NOTES TO FINANCIAL STATEMENTS

Notes to the Financial Statements

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Ferndale Area District Library (the "Library") conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the Library's significant accounting policies.

Reporting Entity

The Library was established in January 2015 as a district library pursuant to the District Library Establishment Act, 1989 PA 24, MCL 397.171. The original public library first opened in November 1930. The Library is governed by a seven-member Library Board. The Library is administered by a director appointed by the Board. The Library is primarily funded through a tax levy on property within the Library district, fines, fees, and state aid.

The financial statements of the Library have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and reporting principles. The Library's more significant accounting policies are described below.

Government-wide and Fund Financial Statements

The government-wide financial statements (e.g., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes; 1) charges to Library patrons who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meet the operational or capital requirements of a particular function or segment. Taxes and other items are not included among program revenues and are reported instead as general revenue.

The statement of net position includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts: 1) net investment in capital assets, 2) restricted net position, and 3) unrestricted net position.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Notes to the Financial Statements

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Intergovernmental revenue, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Library.

The Library reports the following major governmental funds:

The *general fund* is the Library's primary operating fund. It accounts for all financial resources of the Library, except those required to be accounted for in another fund.

The *capital projects fund* accounts for the accumulation and disbursement of resources for the construction of capital projects.

Financial Statement Amounts

Cash and Cash Equivalents

The Library's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes and Library policy authorize the Library to invest in:

- Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.

Notes to the Financial Statements

- Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- Bankers' acceptances of United States banks.
- Obligations of the State of Michigan and its political subdivisions, that, at the time of purchase are rated as investment grade by at least one standard rating service.
- Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- External investment pools as authorized by Public Act 20 as amended through December 31, 1997.

Property Tax

The Library tax is levied on property in the Library's district on July 1 and becomes an enforceable lien on December 1. The Library's ad valorem tax is levied based on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year. The Library levied 2.9000 mill and the taxable valuation within the district was \$800,765,340 on the 2022 tax roll (generating 2023's tax revenues).

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures / expenses when consumed rather than when purchased.

Capital Assets

Capital assets are defined by the Library as assets with an initial cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost. Donated assets are reported at acquisition value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Notes to the Financial Statements

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

_	Years
Library Collection	15
Equipment and Furniture	5 - 20
Buidling and Improvements	15 - 30

Compensated Absences

The Library's employees are granted paid time off in varying amounts based upon length of service and position. Unused paid time off may accumulate, up to 240 hours, and be carried over to a subsequent year. Up to 240 hours of accrued paid time off is paid to employees at the time of termination or retirement. It is the Library's policy to recognize the cost of paid time off at the time payments are made. Paid time off accrued at year-end that is subject to payment has been included as a liability on the statement of net position. No accrual has been included on the fund balance sheet as the liability is not expected to be liquidated with current financial resources.

Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Net Position Flow Assumption

Sometimes the Library will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Library's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Notes to the Financial Statements

Fund Balance Flow Assumption

Sometimes the Library will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Library's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either; a) not in spendable form or b) legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Library Board of Directors is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Library Director can assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned fund balance is the residual classification for the Library's general fund and includes all spendable amounts not contained in the other classifications and is therefore available to be spent as determined by the Library Board of Directors.

Notes to the Financial Statements

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds.

The appropriated budget is prepared by individual revenue and expenditure line item. The legal level of budgetary control is the individual line item. The Board of Directors made supplemental budgetary appropriations throughout the year. All annual appropriations lapse at the end of the fiscal year.

P.A. 621 of 1978, Section 18(1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. The Library had the below expenditures in excess of the amount appropriated during the year ended June 30, 2023.

	rinai						
	 Budget		Actual		Variance		
Operating Supplies	\$ 280,000	\$	281,700	\$	(1,700)		

Note 3 - Cash

The Library reported \$957,256 of cash and cash equivalents as of June 30, 2023, all of which was held in a checking account within one financial institution.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that, in the event of a bank failure, the Library's deposits might not be returned. State law does not require and the Library does not have a policy for deposit custodial credit risk. As of year-end, \$722,324 of the Library's bank balance of \$972,324 was exposed to custodial credit risk because it was uninsured and uncollateralized. Due to the dollar amounts of cash deposits and the limits of FDIC insurance, the Library believes it is impractical to insure all bank deposits. As a result, the Library evaluates each financial institution with which it deposits Library funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Notes to the Financial Statements

Note 4 - Capital Assets

A summary of the changes in capital assets is as follows:

	Beginning			Ending
	Balance	Additions	Reductions	Balance

Compensated absences of the Library will be liquidated by the general fund.

2018 General Obligation Limited Tax Bonds

On November 28, 2018, the Library issued \$2,930,000 of 2018 General Obligation Limited Tax Bonds to finance Library leasehold improvements. The bonds are general obligation limited tax of the Library and bear interest rates of 3.00%. Interest is due semiannually. Principal payments range between \$260,000 and \$390,000 per annum. The bonds have a maturity date of May 1, 2027.

Notes to the Financial Statements

The aggregate amounts of long-term debt principal and interest maturities (excluding deferred compensation, compensated absences, and bond premium) for the five years ending June 30, 2027 are as follows:

Year Ending							
June 30	Principal]	Interest	Total		
2024	\$	345,000	\$	54,950	\$	399,950	
2025		360,000		44,600		404,600

Totals	\$	1,460,000	\$	144,950	\$	1,604,950	

2020 Lease Purchase Agreement

\$33,513 was recorded as an intangible right to use lease. The lease includes two Toshiba e-Studio 4515 copiers and two HP Color LaserJet M5535dn printers. This asset will be amortized over the lease term of sixty months. There are no residual value guarantees in the lease provisions. The lease will end in December 2026. A summary of principal and interest amounts for the remaining lease is as follows:

Year Ending								
June 30	P	rincipal	Int	terest	Total			
2024	\$	6,730	\$	98	\$	6,828		
2025		6,780		48		6,828		
2026		2,826		5		2,845		
Totals	\$	16,336	\$	151	\$	16,501		

Note 6 - Defined Contribution Pension Plan

The Library participates in a 401(a) money-purchase retirement savings plan with Vantage Point. The Ferndale District Library Retirement Plan provides full-time employees the opportunity to participate. Contributions are made by employees and the employer with matching rates determined by the Library Board of Directors on a yearly basis. The Board of Directors has the ability to amend the retirement plan. For the year ended June 30, 2023, the total contributions to the plan was \$44,865, which is equal to the required employer contribution.

Notes to the Financial Statements

Note 7 - Risk Management and Commitments

The Library is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Library carries commercial insurance. Liabilities in excess of insurance are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. There have been no losses in excess of insurance in the prior three years.

To the Library Board Ferndale Area District Library Ferndale, Michigan

We have audited the financial statements of the governmental activities and each major fund of the Ferndale Area District Library (the "Library") for the year ended June 30, 2023. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 23, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Library are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the Library during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the Library's financial statements were:

- Management's estimate of the useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future.
- Management's estimate of the current portion of compensated absences.

We evaluated the key factors and assumptions used to develop these estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no such misstatements that required correction.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 22, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Library's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Library's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the management's discussion and analysis and budgetary comparison information, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Restriction on Use

This information is intended solely for the information and use of the Library Board and management of the Library and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Gabridge & Company, PLC

FADL Board of Directors Request for Board Action

From: Jenny Marr

Subject: Mid-Year Budget Amendments FY 2024

Summary:

It is customary for the board to consider budget amendments halfway through the fiscal year so as to update the budget using the actual amounts for revenue and expenses so far. There are also additional commitments for the Collective Bargaining Agreement that were never factored into the original FY 2024 budget. The proposed amendments (attached) are highlighted in yellow.

Recommended Action:

A motion to approve the proposed amendments to the FY 2024 Budget.

FADL Board of Directors Request for Board Action

From: Jenny Marr

Subject: Employee Handbook Revisions

Summary:

The Employee Handbook was last updated in June 2021. With the ratification of the Collective Bargaining Agreement on December 14, 2023, the language needs to be updated for consistency with the CBA and to reflect the sections where it is superseded by the CBA. There have also been changes to make the language inclusive and gender neutral. If there are sections that the Board would prefer to table for further discussion at a future meeting, an optional motion is proposed.

Recommended Action:

A motion to approve the changes to the Employee Handbook as proposed.
OR
A motion to approve the proposed changes to the Employee Handbook with the exception of
Page Section

FADL Board of Directors Request for Board Action

From: Jenny Marr, on behalf of the Finance Committee

Subject: Non-union Employee Compensation Recommendations

Summary:

With the ratification of the Collective Bargaining Agreement with the union, the Board is now able to make some adjustments for the remaining non-union employees. There are currently 13 employees who are not members of the bargaining unit. By MERC rules, status quo must be maintained for mandatory subjects of bargaining throughout the negotiation period. The CBA was adopted by the FADL Board on December 14, 2023.

The Finance Committee met to go over wages and benefits for non-union employees and has made some recommendations for parity with the union including starting wages, backpay, annual wage adjustment for FY 2023, and the wage range scale step increase percentage from 2.5% to 3%. They also discussed a retirement plan contribution increase equal to what was offered to the union. These recommendations apply to FY 2024 as there is no contractual obligation.

Budgetary Context:

101-271-706.001 - Salaries - Full-time No budget amendment needed

101-271-706.003 - Salaries – Subs Already needed a Mid-year budget amendment, this increase was included.

101-271-718.000 - Pension- ICMA-RC 401 Already needed a Mid-year budget amendment for the CBA, this increase was included.

Recommended Action:

A Motion to approve the Non-union Employee 10-Step Wage Range Structure and Retirement Plan Contribution as recommended by the Finance Committee.

Strengthening the community by providing access to materials and services that inform, enrich, entertain and empower.

Resolution of Gratitude and Appreciation

WHEREAS, Jenny Marr has been a loyal steward of the Ferndale Area District Library (FADL) and its employees, assets, and community since she began as its Director on June 5, 2017;

WHEREAS, her loyalty to staff and patrons, and her professionalism during some of the library's most pivotal moments have elevated FADL in her tenure;

WHEREAS, through her impressive fiduciary expertise and conscientious planning, FADL has been able to purchase, refinance and renovate our building, providing Ferndale residents with an improved venue in which to gather and enjoy the benefits of community;

WHEREAS during the uncertainty of the Covid 19 pandemic, her leadership and steady hand served to minimize disruptions to patrons, and keep this vital service open;

WHEREAS, Jenny's overall collaboration and commitment to fairness in negotiating FADL's firstever collective bargaining agreement has positioned the library, its staff and future leaders for success for years to come;

WHEREAS, her advocacy for access and equity has helped bring services and programming to all members of our community, ultimately making our library more vibrant and interesting;

WHEREAS, her partnership to the library's Board of Directors has been invaluable, and her dedication to FADL shall not be forgotten;

BE IT THEREFORE RESOLVED,

That the FADL Board of Directors bestows its appreciation and commendations to Jenny Marr for her exemplary service as Library Director; and

That on behalf of the Ferndale community, the FADL Board of Directors conveys its gratitude for Jenny's services with assurance that she will continue to make outstanding contributions to any public library she serves.

DATED at Ferndale, Michigan, this 18th day of January, 2024.
